## Displayed in Browser

The image shows a screenshot of a web browser displaying a Craigslist search results page. The URL in the address bar is "file:///Users/caseyj/Web%20Dev%20Git/DM2193FA2014/midterm/judge/Build/index.html". The page has a teal header with the Craigslist logo and the word "SOUTH PARK" above it. On the left is a vertical sidebar with links: "my account", "community" (which is highlighted in blue), "forums", "for sale", "gigs", "housing", "jobs", "personals", "services", and "resumes". The main content area shows search results for "new york city" with a "search" input field. A breadcrumb navigation "new york > community > pets" is visible. The first result is a listing titled "i can haz webpage" featuring a golden retriever sitting at a desk with a laptop and a monitor, looking confused. The second result is a listing titled "Cat for Sale!!!!!!!" featuring a black and white cat standing on a checkered floor.

The image shows a web browser window with a Craigslist-style layout. The header reads "SOUTH PARK" with a small cartoon logo. The left sidebar has buttons for "services" and "resumes". The main content area displays two separate listings. Each listing includes a thumbnail image of a black and white cat, a title, and a large amount of repetitive placeholder text. The first listing is titled "services" and the second is titled "Cat for Sale!!!!!!!".
